

GM-2016 LIST of Posters

	Surname	Title
P1	Ardenghi	Poster Electronic properties of Cantor n-ary set random distribution of impurities in graphene
P2	Avetissian	Poster Influence of excitonic effects on high harmonic generation by strong laser field in gated graphene
P3	Cirillo	Poster Graphene-based Barriers for Solar Cells synthesized by Cold wall CVD
P4	Clausi	Poster Analysis of wrinkles onset and growth in multi-layered graphene-based composite films on flexible Mylar substrates
P5	Coros	Poster Supramolecular assemblies of tetrapyrrolylporphyrin and its metallic complexes with N-doped graphene
P6	De Santis	Poster Melt compounding of Poly(Lactic Acid) with graphite-oxide
P7	Di Bartolomeo	Poster Leakage and field emission in side-gate graphene field effect transistors
P8	D'Urso	Poster Functionalization of Graphene Oxide: a tool to prevent degradation in melt compounded polyesters nanocomposites
P9	Ecorchard	Poster Dependency of sorption activity for radionuclides on the concentration of GO on PA66 substrate
P10	Espinoza-Ramirez	Poster Reduced graphene oxide films for transparent conductive electrodes
P11	Gallone	Poster Graphene – Future applications
P12	Giubileo	Poster Low-energy electron-irradiation effect on transport properties of GFETs
P13	Giuri	Poster A green in situ reduction of graphene oxide into PEDOT:PSS for photovoltaic application
P14	Guadagno	Poster Thermal and Rheological Behavior of TGMDA/Graphene Nanocomposites
P15	Henych	Poster Low-temperature water-based synthesis of Graphene oxide/TiO ₂ composites for destruction of toxic chemicals
P16	Iemmo	Poster Two conductance minima in graphene field effect transistors
P17	Kalenczuc	Poster Preparation and properties of polyethylene nanocomposites with graphene functionalized with transition metal nanoparticles as flame retardants
P18	Kim	Poster Quantum dots attached Graphene oxide for the sensitive detection of ascorbic acid as a biosensor in aqueous solution
P19	Lam	Poster Methane gas sensor based on L-ascorbic acid-reduced graphene oxide incorporated with tin oxide
P20	Lamberti P	Poster FEM Model and Performance Analysis of a Graphene-Based EM-Shielding Device in Presence of Uncertain Parameters
P21	Lancellotti	Poster Performance and Stability improvements of graphene/silicon Schottky barrier solar cells
P22	Landi	Poster Light irradiation tuning of surface wettability, optical, and electric properties of GO thin films
P23	Lee	Poster Study on TMD/Graphene Based Film Fabrication and Its Applications
P24	Luongo	Poster Graphene silicon Schottky diodes
P25	Ma	Poster Study on Optical and Electrical Property Changes of Molybdenum Diselenide by Reversible Hydrogenation
P26	Maggio	Poster Flexible and Solvent Resistant Graphene Oxide Paper
P27	Mariconda	Poster Protection of romp catalyst through polymeric globular shell
P28	Mijowska	Poster Nonenzymatic graphene based sensor for glucose detection
P29	Palomba	Poster A New Micromechanical Approach for the Preparation of Polymer-Supported Graphene
P30	Papari	Poster THz spectroscopy of graphene-like materials and hybrids for the developments of bio-compatible devices
P31	Pevzner	Poster Kinetics study of graphene-assisted hydrogen storage and scavenging
P32	Pogacean	Poster Electrochemical detection of various organic molecules at electrodes modified with graphene-metallic/bimetallic nanoparticles
P33	Polichetti	Poster Graphene-like sensing film inkjet printed on paper for ethanol detection
P34	Ponticorvo	Poster Highly Active and Stable Hybrid Catalyst of MoS ₂ -Ni-graphene for HER
P35	Pospisil	Poster Photovoltaic Cells with a Hole-Extracting Graphene Oxide Layer Prepared by Material Printing
P36	Raimondo	Poster Graphene-based multifunctional epoxy resin for high performance aeronautic structures
P37	Sadhu	Poster Highly Efficient Graphene Supports for Fuel Cell Electrocatalysts
P38	Sansone	Poster Graphene-Based Thermoelectric Generator
P39	Santandrea	Poster Field emission from graphene flakes
P40	Schiattarella	Poster Influence of metal type and particle size on the Raman spectrum enhancement of metal decorated graphene
P41	Scudieri	Poster Graphene oxide based electrochemical sensor for arsenic detection
P42	Tescione	Poster Zein Microparticles Coated by Graphene Oxide Layers: Towards Nanocomposites with Tailored Morphology
P43	Toto	Poster Flexible nanostructured composites with graphene/DNA hybrids as multifunctional substrates for biomedical applications
P44	Trhlikova	Poster Thermal and electrical properties of graphene, graphite and graphene nanotubes
P45	Vomáčka	Poster Magnetic MnFe ₂ O ₄ -rGO composite for removal of model pollutants from water
P46	Zelechowska	Poster Templated and template-free methods of 3D porous graphene-based structures manufacturing
P47	Zilbermann	Poster One step formation of reduced-graphene-oxide/Co(III)TMPyP system for oxygen reduction reaction
